

Conditioned Power Distribution

PD820V

- 8 channel outputs, independent control
- High resolution time sequence control, sequence starting
- Independent indication LED for each channel
- High resolution Voltage display
- Reliable breaker over current circuit design
- Standard 1RU cabinet design for easy installation
- Through output port available for temporary equipments connection

- Power Supply: ~220V / 50Hz
- Power Capability: ~220V / 32A, Max 10A output/ channel
- Channels Controlled: 8 Channels/(American Socket)
- Sequence interval: 2-3S
- Dimensions (L x W x H): 483 x 227 x 44mm
- Weight: 3.8kg
